

Cleveland Clinic

Advanced Certificate Course in Diabetes

22 - 23 August, 2015 | JW Marriott Hotel, New Delhi Aerocity

Welcome Message

Dear Friends,

It gives us immense pleasure to invite you to **“CLEVELAND CLINIC ADVANCED CERTIFICATE COURSE IN DIABETES”**, from 22-23 August, 2015 at JW Marriott Hotel, New Delhi Aerocity, being organized by Diabetes and Obesity Centre, New Delhi, in collaboration with Cleveland Clinic, Ohio, U.S.A.

Diabetes and Obesity Centre has been actively involved with diabetes and obesity education programs for more than a decade. Cleveland Clinic is one of the world's largest and a highly acknowledged centre of excellence for providing diabetes care, currently rated as second best hospital for diabetes and endocrinology in the United States. Partnering with Cleveland Clinic for this program is certainly a matter of pride and endorses our efforts in the field of diabetes and obesity education.

We have been organizing diabetes education programs in collaboration with Cleveland Clinic for the last six years and this is going to be our sixth collaborative program. It is indeed a matter of great satisfaction that all the previous programs have been very well attended and appreciated as being very practical and relevant to clinical practice.

“ADVANCED CERTIFICATE COURSE IN DIABETES” will be a novel program focusing not only on recent developments in understanding of diabetes and their clinical implications, but also using real-life case study templates to discuss the application of current concepts in diabetes management to clinical practice. This course will aim at enhancing knowledge and clinical skills of the participating physicians, thereby empowering them to deliver world-class diabetes care. All the participants will also be getting a certificate of participation from Cleveland Clinic, Ohio.

We are sure this program will add great value to your clinical practice and you will find the program attractive and worthwhile. We look forward to welcome you to this highly educative and interactive program.
