

Cleveland Clinic

Advanced Certificate Course in Diabetes 2018

18 - 19 August, 2018 | Pullman and Novotel Hotel, Aerocity, New Delhi

*This program is accredited for a total of 12.5 hours of CME credits from
Delhi Medical Council*

WELCOME MESSAGE

Dear Friends,

It gives us great pleasure to invite you to yet another edition of "**CLEVELAND CLINIC ADVANCED CERTIFICATE COURSE IN DIABETES 2018 (CCACCD 2018)**", to be held on 18-19 August, 2018 at New Delhi. The course is being organized by Dr. Makkar's Diabetes and Obesity Centre, New Delhi, in collaboration with Cleveland Clinic, Ohio, U.S.A.

As you are aware, Diabetes and Obesity Centre has been actively promoting education in the field of diabetes and obesity by way of structured education programs for physicians and family practitioners for more than a decade. Cleveland Clinic is one of the world's largest and highly acknowledged centre of excellence for providing diabetes care in the United States. Currently Cleveland Clinic is listed as one of the three top diabetes centres in the world along with Mayo Clinic and Massachusetts General Hospital. Academic support and certification from Cleveland Clinic Department of Endocrinology for this program is certainly a matter of pride and endorses our efforts in the field of diabetes and obesity education.

CLEVELAND CLINIC ADVANCED CERTIFICATE COURSE IN DIABETES 2018 (CCACCD 2018) is going to be our eighth collaborative program. It is indeed a matter of great satisfaction that all the previous programs have been very well attended and highly appreciated as being very practical and relevant to clinical practice. CCACCD 2016 was attended by more than 1100 physicians, diabetes specialists and endocrinologists from across the country and was a grand academic feast enjoyed by one and all. And this year we expect the numbers to touch 1500.

"ADVANCED CERTIFICATE COURSE IN DIABETES" will focus on recent developments in understanding of diabetes and their clinical implications in a highly interactive format. State of the art lectures, debates, real-life case study templates and workshops delivered by academic leaders in the field of diabetes will create ample opportunities to learn and discuss the application of current concepts in diabetes management to clinical practice. The course aims at enhancing knowledge and clinical skills of the participating physicians, thereby empowering them to deliver world-class diabetes care in clinical practice. All the participants will also be getting a certificate of participation from Cleveland Clinic, Ohio.

As always, we are sure this program will add great value to your clinical practice and you will find it worth the time and effort. We look forward to welcome you to this highly educative and interactive scientific feast.

Sincerely Yours,

Dr. B. M. Makkar
Organising Secretary &
Course Director, India
